Donna,

I understand that there may be countless emails but need all of them to show the time period that NOWACKI was still receiving Oath Keeper emails. Nowacki didn't remember joining or paying but is still receiving emails? We may need to set up a second interview based on the emails I receive because there are still a lot of unanswered questions. If you have any questions please give me a call.

Good Morning Sgt. Bartuch,

After our statement, Sgt Nowacki reviewed his spam email folder. Sgt. Nowacki has not counted the spam emails he received, but there are countless emails. I have attached three as an example. As Sgt. Nowacki said, all of these emails went to his spam and he was unaware of their existence for years.

**TONIGHT!: Free Public Webinar on  
Emergency Communications & EMP  
Protection. 8PM Central**

by

**Stewart Rhodes, Founder and President of Oath Keepers**

**THERE IS STILL TIME TO REGISTER.** Attend our free webinar on Emergency Communications & EMP Protection tonight, Monday, October 24th at 8:00 PM Central Time and get 10% off of merchandise\* in our store and 10% off of new *memberships*. Registration is limited, so please sign up now.

**How will you communicate without the internet or phones? How will you communicate after an electromagnetic pulse (EMP) event?**

Join us tonight, Monday, October 24, for this special webinar. Oath Keepers communications experts will present critical information on what Americans must do to have emergency grid-down (no internet, no cell, no power) emergency communications for their family, their neighborhood, and their community. We'll also teach you to what you must do to protect your critical electronics against the threat of electromagnetic pulse (EMP). We will also have questions and answer periods for each topic.

This webinar is open to the public, so please repost and invite your friends. If you have any trouble registering, please email [info@oathkeepers.org](mailto:info@oathkeepers.org) and we'll send you an invitation by email.

**UPDATE 10/22/2016:** As we have all seen in the past few days, the internet is vulnerable to disruption, and the threat of an EMP event (either man-made or natural) is a very serious reality that we need to address. The U.S. government has intentionally failed in its obligation to prepare the American people, so we must do it ourselves. Let's get our emergency communications and EMP countermeasures squared away.

This is a first in a series of critical public webinars we will hold to help get the American people ready. We will also have future webinars that are for Oath Keepers members only, however, as made clear in our Community Preparedness Team (CPT) program, we have a duty to help the American people become prepared, united, and strong again - and we will.

## Re: Hate Groups

I have been informed that the "Oath Keepers" are not designated as a hate group, but are considered a militia group. As far as monitoring, the Federal Bureau of Investigation does not monitor groups, except those predicates (which is hard to do). For Monday or Tuesday, depending on your availability; the nuances of this can be discussed.
